

TSWG Q&A

12.08.20

1. If an Industry Member uses batch processing for booking its allocations, is it acceptable to submit all MEPA events with the same *eventTimestamp*?
2. How must the cancellation of an allocation be reported to CAT?
3. When must the CSC (Condition on Spread Condition) *handlingInstructions* value be used?
4. When must the STOPF (Stop Formula) *handlingInstructions* value be used?
